the protection of the products of the American farm.

We believe in maintaining the flag of America, in protecting every citizen of the United States in his feal rights, at home and abroad, and in preserving the homes of Americans. We are unalterably opposed to the issue of unsecured paper currency, either by the Government or the banks; the free coinage of silver at any ratio, and favor a single standard of value, and that standard, gold.

We believe that this policy, with a wound and stable currency upon a gold basis, will furnish sufficient revenue to meet all requirements of the Government and properly support it. We believe in such discriminating duties in favor of American bottoms ask will again revive our shipping interests, and extend our trade and commerce to every land.

We believe in the Monroe doctrine, and in supplying the Government with ships and fortifications, and men to man them, sufficient at all times to uphold and maintain it. We are opposed to the immigration of paupers, insane and criminals.

We are firm in our convictions that the maintenance of those principles, and the enactment of laws to carry them into effect, under a Republican administration, charged with the duty of enforcing such laws, will, in the near future, guarantee to our country the financial and industrial supremacy of the world.

dress Mr. Wellington said in part:

The Republicans of Maryland can justly say, after thirty years of defeat and disaster, that they have accomplished the redemption of our State. We have shown that we are fit to be intrusted with government, and we now look to the future from the narrow confines of our Commonwealth into the broad domain of National polities. And as the Republican party advances into the political campaign we feel that we are entitled to march with those who not only give delegates in a nominating convention to a Republican candidate, but who will be powerful enough to give the electoral votes as well.

The voice of Maryland Republicanism will to-day go out loud and strong to join the swelling chorus which declares for protection of American industries, American labor, American capital and the American standard of living and wages: a system which began with Washington, had its greatest representative in Clay, was rehabilitated by Lincoln, extended into reciprocity by Blaine, and is intertwined and interwoven with the name of Ohio's distinguished son, McKinley, (Applause.)

A contest in the Committee on Credentials delayed the convention's work until half past 3 o'clock. In the mean time General A lam E. King, ex-United States Consul to Paris; ex-Consul John L. Waller and others made addresses. The report State Senator Day, of Howard County, had made an impassioned address in opposition to it, which closed with the statement that if it was adopted he would never vote the Republican ticket again. The trouble was over the decision of the com mittee giving to Day and his delegation only half the votes to which the county was entitled.

Attorney-General Harry M. Clabaugh was Attorney-teneral Harry M. Chaoligh was elected permanent chairman. He made a brief address in which he expressed the belief that any man nominated at St. Louis who believes in the gold standard and protection to American industries and labor will receive the eight electoral votes of Maryland.

votes of Maryland.

The election of four delegates-at-large resulted in the unanimous choice of George L. Wellington, James A. Gary, William T. Malster and Robert P. Graham. The alternates are N. M. Rittenhouse, Dr. C. W. Bryant, H. M. Sinclair and William E. Fletcher. For electors-at-large, General Adam E. King and J. Cookman Boyd were unanimously chosen.

The Committee on Resolutions reported the following platform, which was adopted after an effort to instruct for McKinley had been voted down:

down:

We the Republicans of Maryland, in convention assembled, reiterate our allegiance to the principles of the National Republican party. We declare for protection to American industries, believing that only in protection can prosperity again come to the Nation, and we are in favor of reciprocity as tending to build up our commerce with our South American neighbors. We believe in the gold standard upon which to base our circulating medium, and are opposed to free and unlimited coinage of silver until an international agreement of the important commercial countries of the world shall give silver a larger use. We heartly commend the present State Administration and the Legislature just adjourned for the admirable record they have made in carrying out every pledge made at the Cambridge Convention, though hampered by a Democratic Senate.

Whereas, We have absolute confidence in the good judgment and intelligence of the four delegates-atlarge to the National Convention at St. Louis; and Whereas, We believe that they will labor for the best interests of the Republican party in their selection of a candidate for the Presidency; therefore, be it

The resolutions also indorse H. Clay Evans, of Chattanooga, for Vice-President. Mr. Evans was the Republican candidate for Governor in 1894, and the resolutions adopted by the convention to-day condemn the action of a majority of the Democratic party in the Tennessee Legislature in counting him out. The convention elected Henry Clay Evans, Ernest Caldwell, James Jeffreys and Colonel E. J. Sanford delegates to the National Con-

vention, and all pledged themselves for McKinley.

The candidates nominated for the Court of Chancery Appeals are Judge Turner, of East Tennessee; Judge Poston, of West Tennessee, and Judge Smith-

son, of Middle Tennessee..

The convention was attended by 800 delegates.

The financial plank of the platform adopted is as

follows:

We are unalterably opposed to any scheme that will give to this country a depreciated and debased currency. We favor the use of silver as currency, but to the extent only that its parity with gild will be maintained, and in consequence are opposed to a free and unlimited and independent coinage of silver at a ratio of 16 to 1. We believe that every American dollar should be an honest 100-cent dollar, always and everywhere.

A CHICAGO TERMINAL SCHEME. PROPOSED ESTABLISHMENT BY TWO ROADS OF NEW TRANSFER YARDS ON THE STICK-NEY TRACT.

and the construction of a new belt line around the city on substantially the same plan as originally contemplated by General Torrence.

When the Stickney tract scheme was first launched a number of years ago, it was for the purpose princhally of establishing new stock yards there in opposition to the Union Stock Yards. A few months ago the managers of the various roads which had acquired an interest in the tract appointed a committee to devise plans for utilizing the Stickney tract. This committee, with the assistance of F. S. Winston, has completed arrangements that promise a speedy consummation of the ambittons scheme. The tract is to be covered entirely with transfer yards and immense warehouses, where the various roads can interchange their traffic without bringing the cars through the city and over roundabout routes. The present Union Stock Yards Company will not be interfered with and the construction of a branch line from Summit to the Union Stock Yards over the right of way recently obtained by the Santa Fe will afford the new terminal bet line the opportunity to transfer and handle the live stock business to and from the Union Stock Yards. The Santa Fe's main object in entering into the scheme was to secure a line of its own into the yards. The Santa Fe's main object in entering into the scheme was to secure a line of its own into the yards. The Santa Fe's main object in entering into the scheme was to secure a line of its own into the yards. The new Stock Yards line, which will branch off from the main bett line at Chappell, near Summit, and run due east through the Stickney tract to the Union Stock Yards, is to be badit jointly by the Santa Fe and the Michigan Central railroads, the latter constructing the line from Chappell to Forty-ninth-st, and the Santa Fe building it thence to the yards. A lease for the use of the whole line will be given to the Chicago Terminal Railway Company and of the Chicago Terminal Railway Company.

The Hilliard paintings will be sold later. Other paintings in the list were sold as follows: "Orange Peddler," A. Stachle, \$35; "Street in Caro," Leinweher, \$25; "Lake George," H. THE FRENCH CABINET CRISIS.

A REPORT THAT PRESIDENT FAURE HAS ACCEPTED THE RESIGNATIONS.

BELIEF THAT THE RADICALS WILL TRY TO PRO-

Paris. April 22.-It is reported that President Faure has accepted the resignation of the Cabinet, which will become an accomplished fact when the Chamber of Deputies meets on Thursday. This rumor, however, cannot be confirmed. It is the general opinion that President Faure will endeavor to obtain the formation of a Cabinet which will conciliate and concentrate the elements opposing the present Ministry. It is suggested that the President will ask either MM. Peytral or Méline to form a Ministry, or he may even request M. Bourgeois to reconstruct his Cabinet or form a new one if the Chamber of Deputies should vote confidence in the present Ministry

The opinion is almost general in the lobbies of the Chamber of Deputies that the Radicals in the Chamber will, at the sitting of that body to-morrow, endeavor to provoke a vote of confidence in the Ministry, even after the Government's statement has been made announcing that Premier Bourgeois will persist in resign-

The Municipal Council held a meeting to-day at which M. Fourniere introduced resolutions demanding that the Chamber of Deputies defend the rights of universal suffrage against the encroachments of the Senate; expressing regret at the determination of the Cabinet to resign, and proposing an immediate revision of the Constitution.

and proposing an immediate revision of the Constitution.

The Conservative and Moderate newspapers, in their comments on the Ministerial situation, heartily applaud the attitude of the Senate toward the Cabinet.

The "Matin" and the "Figaro" declare that some of Premier Bourgeois's colleagues are relying upon the Chamber of Deputies to make a demonstration against the Senate, and thus enable them to withhold their resignations. The Radical and Socialist organs reproach M. Bourgeois for bowing to the Senate, and describe his intended resignation as another desertion.

According to the "Matin," M. Brisson, president of the Chamber of Deputies, thinks it irregular that the Cubinet should announce their intentions in the Chamber of Deputies before placing their resignations in the hands of President Faure.

London, April 22 .- "The Daily News" will publish to-morrow a dispatch from its Paris correspondent in which President Faure is represented as very uneasy, hardly knowing which way to turn. According to the dispatch, M. Faure meditates reverting to the policy formerly adopted by M. Carnot of shuffling off the outadopted by M. Carnot of shuffling off the outgoing Cabinet and bringing it in again as a new one. He has sounded M. Sarrien as to whether he would assist in the work of forming a Ministry. M. Sarrien, who remains neutral, often assisted in M. Carnot's Ministerial shuffles. If the Chamber of Deputies supports M. Bourgeois a deadlock will ensue unless President Faure shall ask the Senate to join in diesolving or resign himself. It is believed that M. Bourgeois is playing for the retention of power, and will be guided entirely by the decision of the Chamber of Deputies.

REGULATING HOURS OF LABOR.

Berlin, April 22.-The Government in March issued a decree limiting the working hours of employes in bakeries to twelve. To-day a Conservative member of the Reichstag offered an interpellation question-ing the expellency of State interference with hours of labor.

Continuing his remarks, he denied the claim of the Socialists to exclusive representation of the working classes. The Government, he said, was incressantly studying the welfare of the working people. MR. BAYARD URGES PATIENCE.

London, April 22.-United States Ambassador Bay ard to-day visited the principal educational and lit-erary institutions of Birmingham, and was afterward entertained at a public luncheon by Mayor Smith, who was recently raised to the dignity of Lord Mayor. In replying to a toast proposed by the Lord Mayor, Mr. Bayard referred to the interest which the late John Bright, who was long a Mem-ber of Parliament for Birmingham, had always displayed toward the United States. In dealing with the contrast between Birmingham and Boston, in an article written by Joseph Chamberlain for an American magazine, Mr. Bayard said it was evident American magazine, Mr. Bayard said it was evident that the public of Birmingham were actuated by the laudable principle that it was every man's duty to contribute to the public weal and community of kinship and language. The interest between America and England, he said, was so strong that it would be impossible for it ever to be ruptured, and only required patience and statesmanship on both sides to satisfactorily adjust all the minor differences which existed between the two peoples.

Mrs. Parker, wife of the United States Consul at Birmingham, gave a reception in the afternoon to Mrs. Bayard.
